FAMILY OWNED & OPERATED
24 Years in Business

EntryPoint Doors and Windows of Atlanta was founded by Paul and Betty Butler in 2003 in Buford, Georgia. In the beginning, Entry Point started out in the basement of Paul and Betty's home and specialized in front door transformations.

Over time the company expanded to include custom iron doors, custom glass options, complete window replacement and exterior door replacements.

EntryPoint enjoys the advantages of direct supplier relation-ships, which provides us the opportunity to offer our customers a wide variety of superior custom products with quick turn around and competitive pricing.

As EntryPoint began to grow, Paul's son Brett, and daughter-in-law Christy joined the company. Now the company has grown to over 45 employees, but we have never lost focus of doing what is right for the customer.

Windows, Doors, and More

› EXTERIOR DOORS › SLIDING DOORS
