DOORS

Boise Cascade

# Why Therma-Tru® Doors

## Uncompromising quality, inside and out.

### #1 Among Building Pros

It's a brand you can trust. Why? Because year after year, building professionals rank Therma-Tru #1 – as the brand they prefer most – in entry doors.\*

### Experience & Know-How

Behind every Therma-Tru door stands decades of experience and technical know-how. Therma-Tru makes or recommends every aspect – from the glass to the hinges – to bring your home durability and reliability through the years.

### Lifetime Limited Warranty

When you pay close attention to every detail that goes into a door, you can stand behind its parts longer than the rest. That's why your Therma-Tru fiberglass door system is backed with a lifetime limited warranty – the industry's most comprehensive warranty of its kind.

Contributes to an energy-efficient home and is backed by the industry's most comprehensive lifetime limited warranty.

Front Cover: Classic-Craft Rustic Collection, Lucerna Glass, Door – CCR20022-1D, 1C, Sidelites – CCR3412SL-1D, 1C

\*Brand Use Study, 2017 *Builder* magazine.

†Excluding primed Pine and Oak frame components.

††Excluding improper assembly of components into a door system by the distributor, dealer, builder or remodeler, and the installation of the door system.

†††Excluding installations within 5 miles of a body of salt water and the finish.

††††Excluding normal wear and tear.

\*As tested by an independent laboratory. Not available on certain configurations.

Note: See your Therma-Tru seller or visit [www.thermatru.com](http://www.thermatru.com) for details on limited warranties and exclusions, and ENERGY STAR qualified products.

Items denoted in **RED** add one week to existing lead time if not in stock.

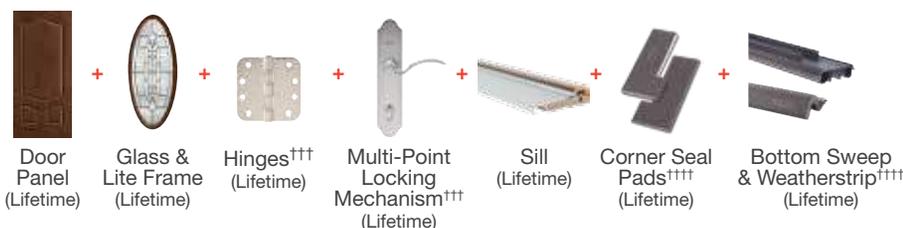

A Therma-Tru door with genuine Therma-Tru components is more than a beautiful door – it's a complete door system. Each part of the system – from the glass to the hinges – is engineered to work together for weather resistance and energy efficiency.

And Therma-Tru can stand behind more parts of a door system for longer than other door companies because Therma-Tru makes or specifies everything that goes into it. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranty.

### Backed by our lifetime limited warranty.

#### Therma-Tru. Fiberglass Doors

All of these genuine Therma-Tru components are included in our lifetime limited warranty.† The homeowner has one source, Therma-Tru, to turn to if an issue arises with the door system.††

#### Our Lifetime Limited Warranty

#### Other Fiberglass & Wood Doors

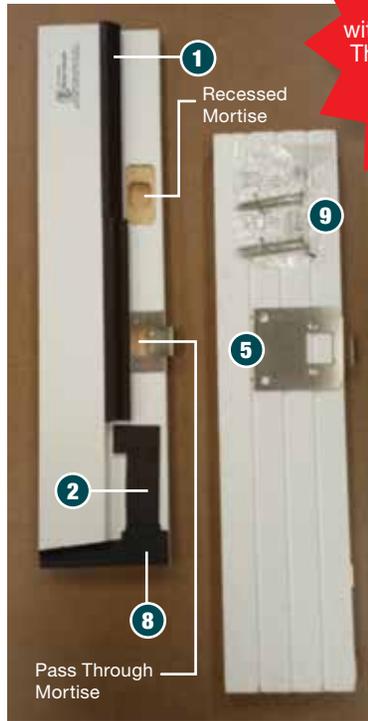

Other companies that only supply the door panel either don't warrant as many parts of the door system or warrant them for a shorter period. That could leave the homeowner without coverage and confused about who to turn to if issues arise.

#### Other Door Companies' Warranties

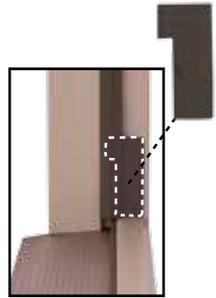

# Door System Components

**It's a system,**  
with a system warranty. Therma-Tru covers all the components...  
(slab, lite insert, sill, weatherstrip, etc.)

**1 Weatherstrip**  
Foam filled compression weatherstrip remains flexible and helps seal your entryway against moisture and air infiltration. Removable for finishing. Available in white or bronze.

**Long reach** is applied to strike and head jamb for superior seal that competitors do not offer;  
**medium reach** is applied to hinge side (reduces hinge-bind).

**2 Seven Shape Corner Seal Pad**  
Its innovative design creates an air pocket that helps prevent air and water infiltration.

**3 Door Bottom Sweeps**  
Features dual bulbs with dual fins that sit tightly on the sill to help prevent air and water infiltration.

**4 Composite Sills**  
Profiled design for a tighter fit with the door to help eliminate the destructive effects of water. Inswing uses a composite adjustable sill.

An outswing uses a fixed composite sill.

**5 Adjustable Security Strike Plate+\*** Provided to Match Hinge Color  
Tested to withstand up to three times the force of standard strike plates, offers both security and adjustability.

**6 Hinges**  
Available in ball-bearing, spring-loaded and self-aligning tabs and non-removable pin (NPR).

**7 Transport Clip**  
When attached to the slab and frame with screws, guarantees a consistent reveal, provides for ease of installation and pre-drilled for door hardware.

**8 End Sill Pads**  
Provide a gasket between the frame and sill to prevent leaking...performs better than caulk.

**9 2 - 2-1/2" Long Screws to Apply in Top Hinge for better performance.**  
2 - 2-1/2" Long Screws to Apply in Strike Plate for better security.

**Screws**  
Boise uses 1" screws into the slab and 3/4" screws in the frame when applying the hinges...better holding power.

# Door Options

Choose from our many fiberglass doors to create an entry that complements the architectural style of your home. Options include wood-grained, stained or smooth and painted surfaces.

## Classic-Craft® Premium Entryways

These premium fiberglass entryways come in four wood grains or a smooth surface that all rival the look of custom wood.

Classic-Craft entry doors are rated a *Consumers Digest* Best Buy.

## Architecturally correct for true classic beauty.

Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

# Door Construction

## Architecturally correct for true classic beauty.

Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

### Premium – right down to the edge.

A solid hardwood square edge delivers a genuine wood appearance.

### Standard fiberglass bullnose edge.

The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

More than 10% wider glass\*

**Classic-Craft Premium Glass**

**Standard Glass**

Up to 25% wider panels\*

**Classic-Craft Premium Door**

**Standard Fiberglass Door**

Vented Sidelites

# Vented Sidelites

Therma-Tru reinvented sidelites to meet the needs of homeowners seeking ventilation, convenience and aesthetics. Keep the incredible look of the entry or patio door system without sacrificing the pleasure of a fresh breeze. There's no need to cover the door with a screen. Choose beautiful vented sidelites instead. And only Therma-Tru offers vented sidelites with decorative glass design options.

- Works as a small swinging door with sturdy stiles to accommodate hinges, multi-point locking system and thumbturn.

- Wide patio mullions provide required structural strength for years of dependable operation.

- Continuous system, recessed strike plates and multi-point locking gears provide security and stability.

- Convenient, removable screens – available in bronze and white – are easy to operate and designed for years of worry-free use.

Refer to the ● for available sidelites.

(Not all glass available for vented sidelites).

In stock in 12" sidelites only (no 10" sidelites).

On 8'0" units 14" only.

### Tongue

(For single door systems.)

### Heights:

6'8"  
7'0"  
8'0"

### Perfect for the front entry.

- Enjoy the added curb appeal of an elegant front entry unobstructed by a screen door.
- Choose eye-catching, decorative glass designs to complement the front entry door selection.

Note: Items denoted in RED add one week to existing lead time if not in stock.

# Frames & Sills

## Frames

Boise offers a wide variety of frames to choose from:

Primed Finger-Joint Pine for your Builder Grade needs.

DuraFrame...the Boise standard. A primed Finger-Joint Pine with Alaskan Yellow Cypress and Dura-Seal at the bottom to offer a durable rot resistant frame. **(Limited lifetime warranty)**

DuraPlast is polyfiber formulated, closed cellular structure alternative. Available in both a smooth (paintable) and a textured (stainable). **(Limited lifetime warranty)**

Timbers Collection is a premium, stain-grade frame available in Pine, Hem Fir, Mahogany and Red Oak.

Boise Partners with\*:

## Sills

Allow for a tight seal to help block wind-driven moisture infiltration at the bottom of the door.

Featuring a variety of materials and options to meet the needs of different climates and exposures.

### Inswing Options

#### Basic Composite Adjustable Sill

Wood-grained composite cap and nosing resist rot, dual-durometer weather seal adds protection, and zinc dichromate screws with removable screw caps adjust to maintain a tight seal.

#### Composite Adjustable Sill

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, U-shaped weather seal adds protection, and flush stainless steel screws adjust to maintain a tight seal.

#### Composite Adjustable Sill

Wood-grained composite cap and nosing resist rot, dual-durometer weather seal adds protection, and zinc dichromate screws with removable screw caps adjust to maintain a tight seal.

#### Public Access Sill (Mill, Non Thermal Break)

#### Public Access Sill (Bronze, Non Thermal Break)

### Outswing Options

#### Aluminum Sill with Thermal Break

All-aluminum construction resists corrosion, and integrated weatherstrip forms a tight seal under wind pressure. Also available without thermal break.

#### Composite Outswing Sill (Mill, Light Wood Cap)

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, and integrated weatherstrip forms a tight seal under wind pressure.

#### Composite Outswing Sill (Bronze, Dark Wood Cap)

### Outswing Sill Extender

2"

Finishes:  
Lightwood (Premium)  
Darkwood (Premium)

Boise will typically build on a continuous sill, but boxed units are available upon request. Continuous sills are limited to 12 foot.

# Capabilities

## Multiple Mull Options

Boise has the ability to incorporate various "Mull" configurations to meet specific sizing requirements. And if under 12 feet in width for inswing (10 feet for outswing), Boise will use a continuous sill for better performance and a better overall look. Available in Standard, Patio, Fat Boy, Back-to-Back and Spread mull configurations.

FRONT:  
1. Back-to-Back 2. Fat Boy 3. Patio 4. Standard 5. Spread

BACK:

## Size Modifications (cut or trim)

Boise can modify the size of all fiberglass doors to help meet your exact needs...without voiding the warranty from Thermo-Tru. All cut down doors are "re-railed" to maintain their integrity. Whether in the width or in the height, modifications can be made. The amount which can be trimmed depends on the particular design style of the door or the interior make-up of the door. Boise also stocks several Retro size doors.

### Access Doors

Boise can build smaller doors to accommodate access areas.

### Doggy Doors

Boise can cut and/or install Doggy Doors to meet your exact needs.

### Dutch Doors

Boise can build selected Fiberglass into Dutch style doors.

\*GM Wood Products is not covered under Thermo-Tru's warranty, visit [www.gmcompanies.com](http://www.gmcompanies.com) for more information.

# Finishing

## Pre-Finish

Let Boise apply a “true” finish to your new entryway! For Classic-Craft® and Fiber-Classic® doors, choose any Therma-Tru® stain color or Sherwin-Williams® paint color. For Smooth-Star® doors, choose any Sherwin-Williams® paint color. Decide if you want the doors exterior or interior finished or both. You can also choose to paint the interior and stain the exterior, or use one paint color for the exterior and another for the interior.

## Stain

When staining, you can choose between (7) Therma-Tru® stain colors and Boise provides (2) options when staining a Therma-Tru® door.

**Side “A”** Doors will be stained with natural variations to enhance the appearance of a real wood door.

**Side “B”** Doors will be stained with a uniform, consistent, darker appearance. Overall, the staining will resemble a painted finish.

SIDE "A"

SIDE "B"

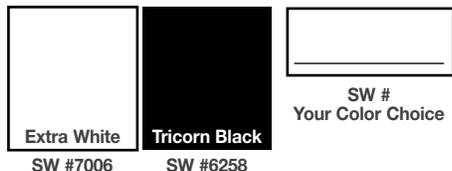

Unfinished rose color Classic-Craft mahogany skin

Unfinished tan colored Classic-Craft and Fiber-Classic skin

## Paint

When painting, you can choose any color available from Sherwin-Williams®. Although we only stock Extra White and Tricorn Black, Boise is happy to order any other color available. Touch up paint and/or stain are provided with your finished order.

## Same-Day. Stain Kit

Therma-Tru highly recommends use of Same-Day stain with its door systems. Stain kit is available in all stain colors shown above.

# Multi-Point Locking System

Engages the door and frame at three critical points from top to bottom for enhanced stability compared to traditional deadbolt assemblies. Featuring premium stainless steel construction that resists corrosion.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.)

## Standard Door Options

Tongue  
(For single door systems.)

Shootbolt  
(For double door systems.)

## Exterior Handlesets

Heirloom  
(wide in stock)

Venture

Millennium

## Hinges

Classic-Craft  
Ball-Bearing

Spring-Loaded

Self-Aligning

Adjustable

## Finish Options

Bright  
Brass

Brushed  
Nickel\*

Black  
Nickel

Oil-Rubbed  
Bronze\*

Hinges are available in the above colors as well as Stainless Steel. Black Nickel not available in self-aligning inswing hinge.

Adjustable Security Strike Plates available in Oil-Rubbed Bronze, Brushed Nickel, Zinc Dichromate (brass finish), and Stainless Steel.

# SDL Bars / Design Pressure (DP) & Impact Rated

## SDL Bars

Each bar is coped and mitred for a precision fit...with numerous patterns available to select from. Boise stocks 7/8" Colonial (stainable & paintable), 1-1/4" Colonial (stainable & paintable), 7/8" Putty (paintable) and Therma-Tru. CCA & CCV 1-5/8" SDL bars available on CCA and CCV Craftsman doors and sidelites only.

1-1/4" Colonial Paintable

7/8" Colonial Paintable

7/8" Putty Glazed (Historical) Paintable

1-1/4" Colonial Stainable

7/8" Colonial Stainable

1-5/8" CCA Stainable

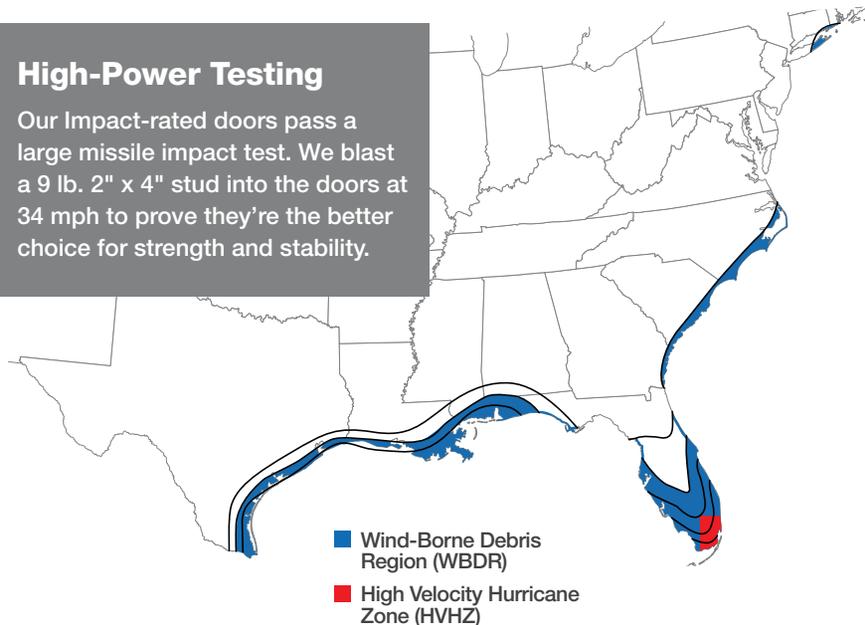

1-5/8" CCV Paintable

## Design Pressure (DP) Rated Door Units

Boise is licensed for DP Rated Door Units...Design Pressure (DP) ratings are based on a Therma-Tru door systems' performance in Structural Wind Load. Almost all of Therma-Tru's Classic-Craft®, Fiber-Classic® and Smooth-Star® fiberglass door systems with or without clear and decorative glass doorlites have been tested and approved for coastal use. This includes configured door systems with one sidelite, two sidelites and double doors.

### High-Power Testing

Our Impact-rated doors pass a large missile impact test. We blast a 9 lb. 2" x 4" stud into the doors at 34 mph to prove they're the better choice for strength and stability.

## Impact Lip-Lite Frame

Features durable, paintable aluminum construction. An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

## Sill Pans

Sill pan flashing helps to eliminate problems associated with water infiltration. Recommended for doors exposed directly to water. Available in 4-9/16" or 6-9/16" in 6 or 9 feet.

## Standard Boise Cascade Pre-hung features include:

4-9/16" Primed Duraframe Frame (Rot-Free; limited lifetime warranty), PVC Brickmould, Composite Cap Adjustable Mill Finish Sill, Inswing. Three 4x4 Brushed Nickel 5/8" Radius/Square Hinges [Classic-Craft® (Ball Bearing Radius/Radius Hinge)], Compression Bronze Weatherstrip, Adjustable Security Strike Plate, Double Bore for Lockset and Deadbolt Prep with Double Strike Prep on Frame, Therma-Tru® Bronze Door Sweep, Sill Cover, Transport Clip, (2) 2-1/2" Hinge Screws, Installation Instructions, Corner Seal Pads, Double Doors include standard Aluminum T-Astragal with Bronze Weatherstrip, Inactive Door is not Bored, and door with sidelites feature Continuous Composite Adjustable Sill.

### Door & Sidelite(s) with Continuous Sill System - Inswing

Description	Size	Actual Unit Size	Rough Opening	Outside Brickmould
w/(1) 10" Sidelite	3'0"	48 21/32" x 82"	49 1/2" x 82 1/2"	51 5/32" x 83 1/4"
w/(1) 12" Sidelite	3'0"	50 21/32" x 82"	51 1/2" x 82 1/2"	53 5/32" x 83 1/4"
w/(1) 14" Sidelite	3'0"	52 21/32" x 82"	53 1/2" x 82 1/2"	55 5/32" x 83 1/4"
w/(2) 10" Sidelite	3'0"	59 21/32" x 82"	60 1/2" x 82 1/2"	62 5/32" x 83 1/4"
w/(2) 12" Sidelite	3'0"	63 21/32" x 82"	64 1/2" x 82 1/2"	66 5/32" x 83 1/4"
w/(2) 14" Sidelite	3'0"	67 21/32" x 82"	68 1/2" x 82 1/2"	70 5/32" x 83 1/4"

### Important Additional Information

- For 7' doors, add 4" and for 8' doors add 16" to the actual unit size and rough opening height dimensions.
- 12" Rectangular and elliptical transoms are 13-1/2" in height, add accordingly. For 10" rectangular transoms add 11-1/2" to the unit height.
- Half round transoms are half the size of the actual unit width, add accordingly.
- For units with public access sills, subtract 1" from inswing height.

### Outswing Door Systems
